The years 1870-72 mark the beginning of the recording of passport applications. The recording of passport particulars was done in a bound ledger, which contained the day, month and year of issue of passport, name and surname of the applicant, name of applicant's father, age and place of birth of applicant and residency, occupation and destination of applicant.

Sadly, at the Malta National Archives, the ledger for the period 1<sup>st</sup> Jan-23<sup>rd</sup> April 1870 as well as the period June-Dec 1872 are non-existent, so that the two-year period 1870-72 period is incomplete by around 10 months. Moreover, the subsequent years namely 1873-1886 are missing.

During 1870-72, a total of 3,005 passports were issued. The majority of applicants were Maltese by birth or by descent. Three hundred and eleven (311) applicants were born in the Maltese Diaspora, namely Egypt, Libya, Algeria, Tunisia, Gibraltar, the Greek Islands, Turkey and neighbouring Italy.

The passport index created includes passengers from Malta and its diaspora whether they were visitors, migrants, students, merchants or on short-term sojourns. It does not include crew members.

Vittoriosa ranked the fourth most numerous towns in terms of number of applications or renewals for passports. The table below shows a breakdown of the number of passport applications by birthplace: Vittoriosa.

Note: The capital city of Valletta made up the largest single birthplace city in Malta where passports were issued (21%) followed by the combined total for the harbour-side cities of Cospicua (Bormla) and Senglea (L-Isla) and Vittoriosa (Birgu), making up a further 21%.

Not all passport applicants for 1870-72 were Maltese by birth or Maltese by descent. Two hundred and forty five (245) were British Servicemen whose place of birth was given as England (168), Scotland (32), Ireland (25) and Great Britain (21). Their occupation ranged from lieutenants, captain, ensigns and majors. They formed part of the Royal Artillery, Royal Navy, Royal Engineers or in regimental armies (e.g. 18 Regiment, 13 Hussars). Three applicants were born in India, two in Australia, two in Canada, two in Germany and one in Holland.

**Of the 150 Birgu-born Maltese who applied for a passport, how many were under 18?**

There were 34 passports issued for children under 18 years. An additional 49 children travelled with their parents.

**How many applicants were adult working-age males, between the ages of 18-64?**

There were a total of 109. This represented 72% of the total passport applicants. Three applicants were in their early seventies.

**How many of the 150 applicants lived in the same town of Birgu where they were born?**

One hundred and nine (109) applicants or 72% of the total. Most of the rest lived in neighbouring towns of Kalkara 11, Senglea 7, Zabbar 5 and Cospicua 3

**How many were women?**

The overwhelming majority were males. Six applicants were women.

**Which were some of least-common surnames not usually found beyond the Harbour side areas?**

The maritime city of Vittoriosa, where foreign surnames are more common, recorded the following surnames:

Antignolo, Barun, Civello, Dequos, Ghilion, Lavanzin, Lucchese, Mazzelli, Meranna, Morello, Oliva, Pattiniott, Petrovich, Sposito and Turner.

Some surnames, like Merana, Dequos, Ghilion, Meranna and Sposito no longer exist (see 2008 Malta census)

**Were there any hyphenated surnames?**

Yes. A Bonici Mompalao and a Fabri Barbara.

**Which destination countries most Birgu-born applied for a passport to go to?**

Egypt was the country most applicants stated as their destination. It can safely be assumed that the majority was migrants and some went as families with children. Only a few were specific as to which city in Egypt they intended to travel to. On the other hand, those who stated Italy as their destination, were likely to visit for family reasons, study, business or as a trip abroad.
